Use the above code when leaving or setting down "Points"

When pointing think of the point as being your Rear. IE with you standing outside and the point being at your back.

Points are Businesses, Public Buildings, Statues, Monuments, Restaurants, Schools Anything of interest.....etc.....

Our Points Cards are a great way to make a note of all the relevant information. They are clearly set out to make it easy to take down the information required. (See below).

Placement

How you place a point is extremely important when on the Knowledge. Points are the key to the Knowledge. If you haven't pointed correctly then you will not be able to remember where that point is along the given road, how to set it down or how to leave the point.

Using the examples above as your guide.

Islington Town Hall. = L on L&R

You can leave it on L & R
The 1ST available L is Richmond Grove

This helps you place the point on a map.

You would also make a note of road closed off part way down No Through Rd

1ST useful L = Florence St
L on L and 1ST useful R = Barnsbury St

You should also make a note of the set down IE can you set down on L or R or Facing?
